# INVITATION

25 November 2019

Dear Colleagues,

The next event of "The Ear and Sinus Surgery Workshop -2020" in Nashik will be held from 26<sup>th</sup> February to 2<sup>nd</sup> March, 2020. Since we can take in only 120 delegates and the seats get filled up quickly, we have been advised to publish the dates in advance for the convenience of delegates who intend to attend.

The course is designed in such a way that the basic and advanced surgeries are addressed very well for the beginners and for the experienced surgeons. These surgeries for the ear and nose are a well mix of its science and art.

We have hands-on wet temporal bone and cadaveric endoscopic sinus dissection for delegates under guidance of faculty with individual attention. The basic and advanced temporal bone dissection course will take the delegates from how to hold the dissection specimen, to sitting posture while dissection, to cortical mastoidectomy, to labyrinthectomy, to translabyrinthine approach for IAM, without leaving anything in between. The basic dissection is for two days, with each delegate having their own wet specimen. Similarly the endoscopic sinus dissection will cover from basic to advance like how to hold an endoscope to ethmoidectomy to frontal recess approach to skull base exposure, again without leaving anything in between. Each delegate will have their own wet specimen.

The 2 days of dissection will be followed by 2 days of live surgical demonstrations. As always the focus of the organizers will be pure in intension, approach and implementation. Academics and practical tips and tricks will alone prevail during these eventful days.

The registrations for the workshop will begin from 30<sup>th</sup> November 2019 onwards.

**Dr.Sudarshen Aahire**  
**Organizing Secretary.**

## FACULTY

**SHABBIR  
INDOREWALA**

Shabbir Indorewala: From Nashik, India. Consultant & MD of Indorewala ENT Institute, accredited by College of Physicians & Surgeon, Mumbai for DORL and by MUHS for Fellowship in Otology for PG students. He is recipient of RAF Cooper & AOI-E.Merck Awards. His name is included in "Limca Books of Records 2011" for having performed maximum number of stitchless ear surgeries. He has developed and popularized concept of: Endomeatal Tympanoplasty, Anterior Tympanotomy, Dimensional Stability of Free Fascia Grafts. His research on fascia was invited for presentation at International Fascia Research Foundation at Harvard University in 2007. He has started fully equipped center for cochlear implant surgery at Nashik since 2009. He has been invited as operating faculty at various ENT forums at many places within the country and abroad. He is passionate about pinnaplasty, petrous apex and other lateral skull base surgeries.

**NEELAM  
VAID**

Dr.Neelam Vaid, passed her DNB (ENT) and MS (ENT) in 1990. She has private practice in Pune since 1996. She is presently consultant in Dept of ENT, K.E.M. Hospital, Pune since 2007 and Kotbagi Hospital, Aundh since 1991. She is Associate Professor at K.E.M. Hospital since 2006 till date. She has specialized training in CI surgery, at Melbourne and Germany, ESS at Singapore and Austria, Otology at Zurich & U.S.A., skull base surgery and phonosurgery at Netherlands. She is recipient of Dr.S.P.Gupta Award for standing first in MS (ENT). She has given guest oration on national & international forums on multiple occasions. She has numerous research experience and publications / presentations to her credit. She conducts a live surgical workshop with cadaveric dissection on basic FESS every year in August since 2004. She has been invited as faculty for various live surgical workshops in the country on endoscopic sinus surgery and otology and CI.

# **SURGICAL FEAST**

## **EAR SURGERIES**

- ENDOMEATAL TYMPANOPLASTY
- SURGERIES FOR ATELECTASIS
- SURGERIES FOR TYMPANOSCLEROSIS
- OSSICULOPLASTY
- REVISION MASTOID SURGERY
- STAPES SURGERY
- COCHLEAR IMPLANTATION
- ENDOMEATAL EXTERIORIZATION OF RETRACTION POCKETS

## **ENDOSCOPIC SINUS SURGERIES**

- NASAL POLYPOSIS
- CSF RHINORRHEA
- SPHENOID SURGERY
- DACRO-CYSTO-RHINOSTOMY
- INVERTED PAPILLOMA

## **SKULL-BASE SURGERIES**

- SAC DECOMPRESSION
- FACIAL NERVE SURGERY
- JUVENILE NASOANGIOFIBROMA
- MENINGIOMA
- ACOUSTIC NEUROMA
- GLOMOUS JUGULAR
- PITUITARY SURGERY

**(Depending on availability of cases)**
